BIBOTTOM

design monica graffeo

É una doppia seduta pensata per gli spazi pubblici dove la gente aspetta, osserva, si diverte: musei, sale d'attesa, hair-stylist, negozi, discoteche, campi da golf... facilita la socializzazione facendo sì che ci si sieda veramente vicino a qualcun'altro, guardando però in direzioni differenti, creando inaspettate relazioni e possibilità di dialogo tra persone che nemmeno si conoscono!

Is a double sitting for public space where people wait or watch or have fun: museums, waiting rooms, hair dressing shops, dresses shop, pubs, discoteques...It starts strange situations because you sit on it really close to some one else but watching in different directions, so it could create unexpected social relations between people that don't konw at all one each other!
