disguincio®

disguincio® produce oggetti di design, percorrendo canali non convenzionali e inseguendo criteri di benessere, emozione, relazione interpersonale. Attinge all'arte più che all'interior design e guarda anche agli spazi collettivi come aeroporti, piscine, discoteche, hotels, centri benessere, palestre, dove l'incontro con l'oggetto non è ancora motivo d'emozione. **disguincio®** è espressivo, intenso, coinvolgente, irriverente... e anche "liberante"

disguincio® produces design objects, with unconventional lines that adhere to criteria of wellbeing, sensations, and interpersonal relations. It is inspired by art rather than interior design and is suitable for community areas such as airports, swimming pools, discos, hotels, wellness centres, gyms, where the impact of objects often has not yet stirred sensations. **disguincio®** is expressive, intense, attractive, unorthodox... and "unrestrictive"
